

# Craig Malins

Craig Malins is a Wintec Product Manager with previous Product Management roles at the Gallagher Group.

He was Senior Product Manager of Perimeter – Gallagher’s security system hardware – and also spent time as a mechanical team leader in the group’s R & D Hardware Development division.

Craig was part of a winning team at the NZ Engineering Awards 2014, taking away NZ Engineering Innovators of the Year Award for the Gallagher Z10 Tension Sensor and K20 Tensioner Link Systems.

Craig believes trades and Engineering are critical to the growth and prosperity of the Waikato: “Involvement in WECA provides a great opportunity to contribute to the promotion of Engineering alongside local industry partners. WECA plays a key role in ensuring engineering careers and pathways are understood and positively promoted to potential trainees.”

THANKS TO WECA SUPPORTERS:
