

Mike Welten

Mike Welten is the General Manager of NDA Engineering. He joined the company as a Project Manager in the late 1990s and was previously Production Manager at the Pacific Aerospace Corporation.

Mike also has a post-graduate Diploma in Management Studies from the University of Waikato.

“Involvement in WECA has been a great opportunity to network with other people from various engineering businesses, educators and training providers. There is plenty of opportunity for dialogue on hot discussion topics at the great events that WECA co-ordinate throughout the year and to have some real input into how we promote engineering as a career.”

THANKS TO WECA SUPPORTERS:
