

Shelley Wilson

Shelley Wilson is the Director of Wintec's Centre for Engineering and Industrial Design.

She has been in management roles with Wintec since the mid-1990s with various roles such as co-ordination of programmes, curriculum development, moderation, student advice and monitoring.

Shelley has an undergraduate degree in Chemistry and Masters and DPhil in Biochemistry from University of Waikato and has also been a member of Wintec's Academic Board and Academic Approvals Committee.

Shelley sees Wintec's involvement with WECA as a vital part of delivering qualifications relevant to industry.

THANKS TO WECA SUPPORTERS:
